A GREAT LITERARY BARGAIN! Cooper's Famous Romances of the American Forest! An Entirely New Edition of

By JAMES FENIMORE COOPER.

The first and greatest of American Lovellats was James Fenimore Cooper. "His popularity, one a writer in the Century Magnetine," was cosmopolitan. He was a simpat as widely read in France R Germany, and in Italy as in Great Britain and the United States. Only one American book his over since attained the international success of these of Cooper's. "Uncle on No. Choint," and only one American author, Fee, has since gained a mane at all ownmensurate with Cooper's abroad. The great author in dead, but this charming romances still live to delight new generations of readers. "The wind of the lakes and the prairier has not less its buissan and the sail of the see keeps its savon," says the same writer abort quotest, purpose, elevating build be more wholesome for the red wan and the pioneer, fall of inchient, in tensely internating, abounding in advenues, yet pure, elevating manhy, and eatirely devoid of all the objectionable features of the modern Inilian story. No resulting could be more wholesome for young or old than Cooper's firms a novelace actuarily new edition of the Leastherstecking Tales has just been published, in one large quarte pages, containing all of these famous romances, compiler, unclangual and unbridged, viz."

QUESTIONS. ANSWERS.

At is a very simple matter. We have arranged with the Publishers of the Americanized Encyclopsedia Britannica to take a large quantity of this work off their hands, thus securing a remarkably low price as well as singularly easy terms. We propose to give the whole advantage of this transaction to our subscribers, and offer to deliver the entire set of the Americanized Encyclopsedia Britannica on payment of \$5.00 and your signing a contract to pay \$2.50 a mouth for 10 months, \$30 in all. This offer is made only in connection with a year's subscription to this paper at regular subscription rates.

Why, that is only about eight

Just so. But you see, in these days of steam and electricity, and labor-saving machinery, a great deal can be done for eight cents a day, especially when twenty or thirty thousand people club their money and each puts his eight cents into a common stock. You can be thankful that you didn't sceeps his offer. If you'd done so and seen the Americanized edition afterward you would have felt like kicking yourself. I suppose your canvasing friend told you that the Encyclopedia Britannics was simply the most complete work of its kind ever published? nero. What is this Americanized Encyclopedia routerpose to offer, anyhow? I never heard of it before. Now if it was the original Encyclopedia Britannies youwere offering I should give young subscription in a hurry. There's a fellow canvassing use for it now, and he wants sirry dollars for the set, three times what you ask for your Encyclopedia.

Why, no, and I don't believe it's so, either. General Grant was as well known in England as he was in this country.

so to se, he was right enough so far. It's a monumental work and cost more than a million dollars to get up. But there are spots on the sun, you know, and there are defects even in the Encyclopædia Britannica. Did he mention to you tant you might look for Ulysses S. Grant in it and not find a word about him? Of course he was, or pretty nearly so. But the Encyclopedia Britannica doesn't mention him for all that. And it doesn't say a word about Sherman either, nor about Sheridan, nor Hancock, nor Blains, nor Cleveland, nor Harrison, nor Harrist Bescher Stowe, nor Julia Ward Howe, nor Elizabeth Stuart Phelps, nor Charles Stewart Parnell, nor Bismarck, nor Jeff Davis,

So it is; he was right enough so far. It's a

Oh, yes indeed. It contains some of the most magnificent biographies that ever were written.

—Mscanlay's life of Dr. Johnson, for example, But you see what they called "the plan of the work" excluded all mention of living characters. They wanted to see how a man would turn out first before they made room for his life in their volumes. So. Well, I certainly don't want an Encyclopadia that will not tell me, anything about the great men of the world mill after they are deed. Why, it's just cracitly while they are alive that I want to know about them most. But see hers. Whatyon cay doesn't hold together. Why isn't there anything sainbout General Grant? He was deadlong before this last edition of the Encyclopadia Britannica was published. Guess you've traveled off the record just a little bit, my friend? Ha! Ha! Ha! Excuse me, but I can't help laughing. I suppose your canvasser told you his Encycloprodia was a brand new book, just issued, 62?

Only published by HIS publishers he meant.
But if he had spoken the truth about the matter
he would have told you that the first volume of
the latest edition of the Encyclopsedia Britannica was insued fifteen years ago, and that the
greater part of it was compiled at that date.
So you see they didn't get General Grant in it
after all. That depends on the kind of book you want. Let me ask you a question or two. You live here in the United States, don't you? Deer me, what a world this is, to be sure. And is there anything else the matter with the book?

Yes, I thought so. Now tell me, about which do you want the most detailed information, an American city or an English town? An Amer-ican statesman or an English statesman?

Just so. But, you see, the Encyclopedia Britannica wasn's compiled for the use of men like you. It was put together to be used by Englishmen in England. And, you see, they want the exact opposite of what you do, and the Encyclopædia Britannica, very properly, gives it to them. It fills pages with the account of some insignificant English borough or county that you may never want to know anything about whatever, and gives a half dozen lines to some State or city here that you want the fullest.

some State or city here that you want the fullest particulars of, but about which an Englishman cares just nothing at all. Right as a trivet, whatever that may be—I never saw one that I know of. You you're just exactly right, all the same. It's the AMERI-CANIZED Encyclopedia Britannica that we propose to put in every home in the West. The long-winded articles on petty British subjects have been cut down to the same length that would have been given them had they been French or German subjects, and the articles on matters of American interest have been all rewritten and treated just as exhaustively as they would have been in the original work had they been specially interesting to Englishmen.

I see, I see. Why it's a perfectly splended idea. The only wonder is that nobody thought of it before. And I suppose there's a biography of General Grant in your adition?

I see, I see. We need an Americanized edi — and by jiminy That's the very thing you are advertising. Am I right?

Well, rather. One of the best and most comwell, rather. One of the best and most com-plete ever written. And there are four thou-sand new biographies besides. In fact, the work contains the life of every distinguished man or woman, American or foreign, now living, or who has died since the Encyclopædia Bri-

Upon my word, I'm glad I told that canvasser to call again. If I hadn't met you I should have been finely stuck. Oh, by the way, how large a work is this of yours?

Ten good sized volumes, excellently bound.
About 7,000 pages altogether, or 14,000 wide columns, equal to about 110 ordinary 12mo books.

Oh, yes, a few. The entire work has been revised down to the present year for one thing. Then an entirely new set of maps has been added, including a separate map for each State

Hal Hal Hal It seems as though we were ready for you at every turn. Why, of course, you can get them sooner. And you needn't pay any quicker on that account, either. My dear sir, you can get the books at once: by paying a first installment of \$5.00 the complete set will be delivered to you then and there. If you hear of anybody else who would like some information about this really extraordinary offer just tell him to send a postal with his address on it to us, and his case will be

That settles it. Here's my first installment. I'm a subscriber to the Encyclopædia from this mo-

We cannot do that, as our sole object in hand-ling these books is to increase our circulation; the only profit we get out of it, as can be readily seen, is the increased circulation of the paper; besides, the books cannot be obtained at any price except in connection with the paper. Good day.

That's reasonable, good day.

## Our Proposition.

We will deliver at your address a complete set of the Americanized Encyclopedia Britannica on payment of \$5.00, and your signing a contract in which you agree to pay us \$2.50 a month for tau menths, in all \$30.00. It is distinctly understood that this offer is made only by giving an order for one

years' subscription to this paper at the regular subscription rates. The Eucyclopædia cannot be obtained in any other manner at any price.

This offer holds good for the Sunday and Semi-Weekly editions. 

The above is for cloth binding; sheep, \$3.50 per sets extra, haif morocco, \$5.00 extra. A DISCOUNT OF 5 PER CENT, FOR CASH. The setts are now ready for
